

# ECE NURHAN cv

Sr. Art Director

T: +90 (536) 382 84 79    ecenur@yahoo.com    www.ecenurhan.co

## Objective

To utilize my extensive design experience and knowledge, along with strong creative, interpersonal, and organizational skills, in design, branding, and art direction.

## About

I was born June of 1979. Because of my father's profession, I lived and grew up in different countries such as; Holland, Germany, Austria, Saudi Arabia, and the U.S. With these experiences, interacting with different cultures, I accumulated different visions and ideas, which helped me in my 20 years of experience in my professional life as a designer. Interested and excited about Manga art in my St. Benedict High School years in Chicago, I entered the world of advertising, design and illustration. I always had the enthusiasm to draw and create things since my childhood. I spent a year studying Psychology and Sociology at the University of Illinois at Chicago, but always wanted to do something related to illustration, design, advertising, and marketing and later decided to study Graphic Design. Returning to Türkiye, I went to Bilkent University in Ankara and graduated from the Graphic Design department in 2003. After graduation, I worked in many advertising companies as art director, graphic designer, illustrator and have been living my dream job since then. I try to show my lively character through my visual repertoire and would love to connect with individuals who share my sense of style.

## Education
